ORIGIN COMPETITION

NEWS FROM THE SALES TEAM
PRICE RISES

Reminder about recent pricing movements, please be careful and check that your quotes are still current. Over the last few months we've seen the following movements;

May has seen some of the hardwood mills, moulding suppliers, sheet products, as well as some T&G flooring producers have an increase of approx. 5%. June has seen the balance of the hardwood, moulding and flooring suppliers increase by 5%, as well as the James Hardies Products increase by 3%. July will see particleboard flooring increasing by 3.5%. Moving forward engineered products (I-beam & LVL) will see a 5% increase in August. As always we try to give as much notice as possible and keep you up to date.

You can also e-mail me at tim@versacetimbers.com.au or call 0414 564 618 to discuss further.

Accredited Queensland Timber Merchant Network
Our friends at AQTMN are looking for case studies involving Qld timber. They would love some recent photos Qld timber being used. They would also fully acknowledge the builder on their website and any print literature they generate using the images. If you would like to share your project with them please get in contact with Jenni at Versace, 0402 307 949 or email; jenni@versacetimbers.com.au. Check out their great web page!

NEWS FROM THE PRODUCTION TEAM

Currently there is a high demand on all fronts for the truss and frame plant. Please be aware that there maybe some delays in quoting and stay in touch with your rep if you need anything urgently. Job size can also make a difference, so be sure to speak to your sales rep about lead times. For any further information, please call Corey Kerr 0429 021 297 or e-mail corey@versacetimbers.com.au

Welcome back....

Versace Timbers is very happy to announce that Jason Forsdyke is back. Most of you would have dealt with Jason a few years ago in the truss department. Jason has returned to the fold and is now part of the sales team. Jason is a much needed addition and will assist the Reps with the day to day process of taking care of our growing client base.

Versace Timbers are part of.....

ACCREDITED QUEENSLAND TIMBER MERCHANT

As a member of the accredited Queensland timber merchant network you're guaranteed to receive true to label, fit for purpose Queensland timber at a fair price. As a bonus you'll get the right advice from network staff who are fully trained on building regulations and technical aspects of timber application and use.

NEWS FROM THE ACCOUNTS TEAM

If you are making your payments by electronic transfer please use your account code e.g. ABC001 in the reference box so we can allocate the money to your account in a timely manner. If you would like your invoices and statements emailed, instead of posted, please email your request to doug@versacetimbers.com.au. Thanks Doug

Tanalised Enseal is a timber preservative in a handy aerosol spray pack for the protection of all end cuts, rebates, drill holes and notches in treated timber products. This ensures that your product meets the retreatment requirements of your treated timber guarantee. Tanalised Enseal is a specially formulated as a clear preservative product designed to penetrate the timber and provide protection of H2F, H2 and H3 treated products and is ideal where timber is to be clear coated such as window joinery. You will never regret the small additional cost of taking these steps when you appreciate the long term benefits of durable outdoor structures using treated timber.

Q. What is Tanalised Enseal?

- Tanalised Enseal is transparent zinc based, resealing solution for treated wood products intended for general above ground applications such as structural timbers, decking and fencing where cutting to length, notching, drilling, machining or other work that may expose areas of un-penetrated wood.

Q. When should I use Tanalised Enseal?

- Tanalised Enseal is for the resealing of treated timber products where cutting to length, rebating, notching, drilling or other work during installation or fitting exposes fresh timber surfaces. Tanalised Enseal is suitable for timber surfaces that are above ground as in H2 and H3 situations as defined in AS1604. This product is only for supplementary application to timber that has been preservative treated in accordance with AS1604. This product is not suitable for application to or protection of untreated timber. Do not place the resealed timber end or surface in ground contact.

Available at Versace Timbers
