- Karl Blair** - Monday 14<sup>th</sup> July, Returning Thursday 17<sup>th</sup> July
- La-Lani Clemett** - Monday 28<sup>th</sup> July

## ACCOUNTS TEAM

As another financial year draws to an end and the next one begins, it is time to get together all the invoices and other relevant paperwork for your accountant, lodge the final BAS statement and get ready to do it all again for another year.

With all the rain we have had this year we are aware there are still some delays with getting trades which may result in draws coming through later than expected. If you are experiencing cash flow difficulties, please call us as soon as possible as we may be able help you out.

If we can't get in contact with you and find out where you are at with outstanding payments, then we may be left with no choice but to place your account on stop credit and / or begin alternative debt collection action if payment terms are breached. We are required to report our accounts receivable trial balance to a number of credit agencies each month, so continual trading beyond agreed credit terms may affect your credit history and future borrowing capacity.

## BRENDALE TRUSS & FRAME PLANT

The approximate lead time for quotes are as follows:

**Quotes – Approx. 10 Working days (standard residential quotes)**

**Quotes – Approx. 4 Working days (carport quotes)**

**Quotes – Approx. 18 Working days (multi-residential & commercial quotes)**

## ADVISEMENT OF INCREASES

- DOOR FURNITURE UP TO 4%
- WEATHERTEX CLADDING UP TO 6%
- F27 HARDWOOD UP TO 8%

### SEPTEMBER 2025

- SEALANTS & ADHESIVES 5-10%

# July Project Highlight

**Roof Size - 225m<sup>2</sup>**

**Location - Yugar**

What might look like a simple roof profile, this 225m<sup>2</sup> gable to gable roof had a range of surprises in it which required careful consideration alongside the builder and home owner.

It started with a free spanning roof design on plan with scissor trusses, although it wouldn't work in theory, 1 of our many experienced detailers (Chris Waugh) made it his mission to ensure the home owner could get what they were really wanting, a nice high raked ceiling.

After a lot of direct communication with the builder and owner, the final product now incorporates a concealed 310UC which cantilevers over the 4m deck to split the scissor trusses in half to achieve the clients ideal finish.
