Kings Holiday Closures

Saturday 4th October & Monday 6th October
 Virginia & Brendale Sites

**Red Alert LVL 12 Framing
 90x35x6.0m**

In areas facing extremes of temperature and dry winds, Red Alert Wall provides a stable, straight and consistent solution. The stability of Red Alert eliminates the need for packing and straightening during the build. It can substitute for MGP 10 and MGP 12 and its increased capacity may allow for wider stud spacing and smaller jamb studs.

Red Alert wall is a H2S treated LVL used for wall framing studs, plates and noggings.

- No twists, no warps and no shrinkage
- Coloured “Red” for easy identification
- Strong and light Laminated Veneer Lumber
- Glue-line H2S treatment as per AS/NZS 1604.4

Lengths 2.4 - 12.0m available to order in.

Please note: This is not an external product and should not be used for decking situations.

UPCOMING LEAVE

Steve Rees - Friday 3rd October, Returning Monday 13th October

Kai Jefferson - Tuesday 7th October, Returning Monday 13th October

Ellie Tutte - Monday 20th October, Returning Tuesday 21st October

Jaylan Mawer - Thursday 23rd October, Returning Tuesday 28th October

ACCOUNTS TEAM

If you are experiencing cash flow difficulties, please call us as soon as possible as we may be able to assist. If we can't get in contact with you and find out where you are at with outstanding payments, then we may be left with no choice but to place your account on stop credit and / or begin alternative debt collection action if payment terms are breached. We are also required to report our customers to a number of authorities once an account is 90 days overdue, which may be detrimental to one's credit rating.

Freight Increase Reminder

Please be advised that our truck delivery charges are increasing by 4% on 1st October 2025

BRENDALE TRUSS & FRAME PLANT

The approximate lead time for quotes are as follows:

Quotes – Approx. 14 Working days (standard residential quotes)

Quotes – Approx. 8 Working days (carport quotes)

Quotes – Approx. 22 Working days (multi-residential & commercial quotes)

HEADS UP: DOOR LEAD TIMES ARE GETTING LONGER

With the end-of-year building rush in full swing, we're starting to see door order lead times stretch out. What's usually a week is now taking a little longer, and we expect this to keep increasing right through to early 2026. To save yourself the stress and keep your projects moving smoothly, we recommend getting your door orders in as early as you can.

ADVISEMENT OF INCREASES

OCTOBER 2025

- CUTEK TIMBER TREATMENT 4%
- COWDROY 4.5%
- SHEFFIELD PRODUCTS 4%
- SIMPSON STRONG-TIE 2%

wedi®

Versace Timbers was excited to host our first Wedi workshop, where Jimmy from Wedi delivered an engaging, hands-on session on the installation process and the benefits over conventional methods. Congratulations to our newest Certified Wedi Installers! If you'd like to learn more about the Wedi waterproofing system and how it can benefit your business and reduce downtime on site, please contact your Versace Rep.

Prostate Cancer Foundation of Australia

*Prostate Cancer
Awareness Month*

Thanks to the wonderful support of our builders, customers and community, Versace Timbers is proud to announce we **raised \$700.00** during our September BBQs for Prostate Cancer Awareness Month! We're so grateful to everyone who came along and contributed!

Congratulations to our winners of our raffle prizes!
